

**REMARKS**

Upon final review of this application, it was determined that the recommended paragraph at the beginning of the specification making reference to the origin of this case as a 371 National Phase of PCT Application No. SI2004/000043, filed December 22, 2004, and its claim of priority to the ultimate parent Slovenian Patent Application No. P-200300318, filed December 23, 2003, claiming priority was missing, and such paragraph has been added at the beginning of the disclosure. Applicants have also requested amendment of the title to delete the initial word article "A," the use of which is not in accordance with U.S. practice in titles of issued patents.

In the event this response is not timely filed, Applicants hereby petition for the appropriate extension of time and request that the fee for the extension along with any other fees which may be due with respect to this paper be charged to our Deposit Account No. **12-2355**.

Respectfully submitted,
